

GREENDALE SMALL WORKS DIVISION

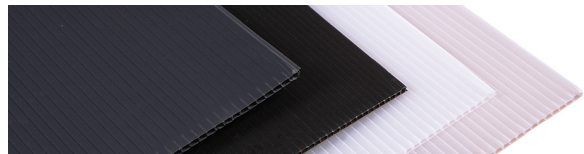

KEEP YOUR EMPLOYEES SAFE AT WORK

The Covid-19 pandemic has prompted an enhanced awareness and enforcement of social distancing in the workplace.

Greendale Construction are offering simple, innovative solutions which will allow you to provide segregation within your workplace. We can provide a variety of systems to suit your specific requirements:

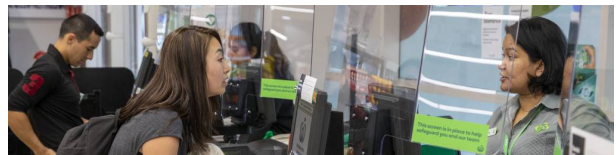

Plasterboard on metal stud or
timber stud dry wall systems

Correx corrugated plastic sheeting
(can be fire resistant systems if required)

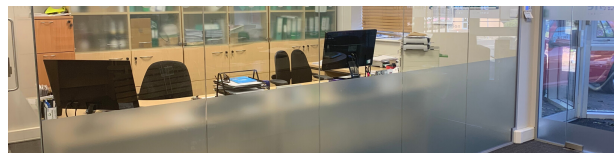

MDF / Ply hard timber screening,
with optional vision panels

Acrylic screens with optional height adjustments

Temporary plastic sheeting system
with telescopic supports

Glass windows, either
framed or frameless

Following a free initial consultation where we assess your current floorplan, we can provide full design and installation; utilising the space available and recommending the best system for every case.

This bespoke service will be carried out quickly and to cause the least inconvenience to the running of your business / workplace.
